## EDUCATION

**Sergio Arboleda University**  
*Bachelor of Computer Science and Artificial Intelligence*

Jan 2019 – Dec 2023  
GPA 4.3

## WORK EXPERIENCE

**SLB - Schlumberger** Jul 2023 – Present  
*IT Global Service Desk Analyst - L3 Senior*

- Member of the AI-Deation Team, leading AI adoption and enablement initiatives focused on integrating Generative AI tools, prompt engineering practices, and AI-driven workflows to improve documentation quality, communication, and operational efficiency across the Global Service Desk.
- Member of the Software Support Team (SST), working with Azure DevOps and Scrum workflows designing and developing internal business applications and automation solutions using Power Platform (Power Apps, Power Automate, Dataverse), SharePoint, and Microsoft Teams integrations to improve operational efficiency and workflow automation.
- AI Literacy Champion responsible for promoting AI adoption through training programs, technical enablement sessions, and best-practice guidance for enterprise AI tools.
- Subject Matter Expert (SME) providing advanced technical guidance for Microsoft 365, Azure, Intune, SCCM, Autopilot, LDAP, SAP, VPN, MacOS, and enterprise identity solutions, supporting complex escalations and global operations supporting users worldwide in Spanish, English, and Portuguese.
- Mentor supporting onboarding, technical development, and knowledge transfer for new analysts within the Global Service Desk.

**Freelancer.com** Dec 2020 - Jun 2024  
*Software Developer – Freelancer Tutor*

- Delivered 100+ software development, AI, automation, and data analytics projects for clients across North America, South America, and Australia, combining technical implementation, consulting, and training services.
- Lead AI Developer for Oskoole.ai, an AI-powered platform leveraging Large Language Models (LLMs), WebSockets, voice synthesis, PostgreSQL, Docker, and CI/CD pipelines, and multi-agent AI architectures to generate interactive learning experiences.
- Designed and developed PocketAI, a multi-agent personal finance assistant integrating LLM, N8N, WhatsApp, Google Sheets, and AI orchestration to automate transaction management, financial analysis, and AI-generated financial reporting.
- Architected and deployed Dissemination.egg.io, an AI-powered B2C freemium platform for university students focused on automated text processing and academic dissemination. Successfully decoupled the application into a standalone infrastructure using Docker, Coolify, and CI/CD pipelines.

**MinTIC - Ministerio de Tecnologías de la Información y las Comunicaciones** Sep 2022 - Oct 2022  
*Tutor / Monitor MISION TIC 2022*

- Delivered programming and software development training to students participating in the national Misión TIC 2022 initiative.
- Mentored learners in Python, software engineering fundamentals, problem solving, databases, and application development projects.
- Supported students through technical guidance, code reviews, and hands-on development activities using Agile learning methodologies.

## RELEVANT COURSES

**Database Design and Programming with SQL** (Oracle Academy, 2021)  
**Developing with AI: Programming with AI Agents** (Big School, 2026)

**AI-900: Azure AI Fundamentals** (Microsoft, 2025)  
**ITIL 4 Foundation Certificate in ITSM** (PeopleCert, 2025)

## COMPLEMENTARY ACHIEVEMENTS AND PARTICIPATIONS

**Performance Recognition**  
*SLB (Schlumberger)*  
TOP Performers Global Service Desk on April, May, July, August, September, October, November - 2024 | Jun - 2026

**Winner Worldwide Hackathon (Bogotá Edition)**  
*ElevenLabs*  
Design and deliver an innovative voice-driven AI Agent solution, demonstrating applied AI Skills and creativity

**Shark Tank 2022 – First Place**  
*Sergio Arboleda University*  
"Light UP" project at Data Fest event. A decentralized system of renewable energy-based light services for Cartagena city. Improves reliability and avoids service outages.  
**Programming Marathon 2022-02, 2023-01 and 2023-02**  
*Sergio Arboleda University*  
Development of customized competitive algorithms using Python

## SKILLS

| Languages       | Programming Languages    | Technologies                                      |
|-----------------|--------------------------|---------------------------------------------------|
| Spanish: Native | 6 years: Java, Python    | Generative AI, LLMs, NLP, Machine Learning,       |
| English: C1     | 4 years: C++, JavaScript | Prompt Engineering, Power Platform (Power Apps,   |
| Portuguese: B2  | 2 years: TypeScript, C#  | Power Automate, Dataverse), Azure ML, Azure       |
| French: A2      |                          | DevOps, Docker, CI/CD, N8N, PostgreSQL, SQL,      |
|                 |                          | MongoDB, Git, GitHub, GCP, React, Node.js, Scrum. |
